

Sports Premium Funding 2017 - 2018

In March 2013, the government announced that it would provide £150 million per annum to improve the provision of physical education and sport in primary schools. Since this announcement the government has committed to continue this provision up to 2020.

The Hendreds has steadily invested in P.E., including the outdoor environment, and class teachers over many years. We believe that being active, across P.E. lessons, playtimes, field trips and competitions has a profoundly positive impact on health, spiritual and social development and attitude to physical activity in future life. Listening to children and parents' wishes, we have made P.E. a prominent and highly regarded part of our curriculum.

In the academic year 2016-17 we received a grant of £8550. This helped us meet the costs of our Specialist Sports Provision (£13,589), using the company Ignite Sports and our Judo Instructor, Mr Gerrans. We have been providing judo for over twenty years, and working with Ignite Sports since 2005.

In the academic year 2017/18 we anticipate a grant of £8,000. This will be supplemented for one year only by an additional grant of a further £9,250, again to be spent on our Specialist Sports Provision and equipment.

Our Assistant Head Teacher and Senior Teacher are both qualified to coach a range of sports, and are P.E. specialists. They lead and monitor the PE curriculum delivered by the school teaching staff and our specialist providers.

This allows us to truly promote our sporting ethos, for all children. They have access to three hours of P.E per week, plus a minimum of six competitive tournaments per year. In addition, up to a quarter of the school access a further two hours of multi-skill sport at After School Club.
