How it works

- Each week the prize fund is generated by the number of players who have paid up (i.e. £1 a week x number of players)
- 50% of the weekly prize fund is donated to FOTH
- The remainder of the prize fund will go to the person who has that Saturday's lotto bonus ball number
- If no one has that week's Lotto number, 30% of the prize fund is donated to FOTH and the remaining fund rolls over to the following week
- The following games will be played:
