

Primary School Health Team Newsletter

Term 3 February 2021 (3)

This newsletter aims to provide families and young people with some useful tips for keeping healthy. Childhood is an important time to instil healthy habits and learn crucial life skills. Establishing these habits early on will help to improve your child's quality of life in the future and enable them to reach their full potential educationally.

Dear all

Just to let you know that we will be sending out our newsletters more frequently during this time where most children are at home. We want to remind you that the school nursing team are still available for advice and support on any health worries you have. Our contact details are at the bottom of the page and we can liaise with you by phone, digital consultation, email or face to face wearing PPE.

There are a lot of resources available to support you and your children and we hope to cover a varied range of topics that may be creating some challenges during these difficult times.

Oral Health Top Tips:

Whilst home schooling your children

Community
Dental
Services

-  Maintain your child's brushing routine: brush 2 x per day, last thing at night and one other time during the day, for two minutes.
-  Use a toothpaste with 1350ppm of fluoride, use a smear of toothpaste until the child is able to spit out, then a pea sized amount. Spit out the excess toothpaste, do not rinse!
-  Try to keep sugary and acidic foods as an infrequent treat with a meal
-  Keep in contact with your dentist, they may still be able to offer you routine appointments. They will also advise if you have any pain or concerns.
-  Link Oral Health to your home learning through health, food, science and fun! Visit our website for lots of fun ideas:
